CABLE ADDRESS

SUZUKI, NEW YORK
UYEKIGUMI, YOKOHAMA
TIGRINUM, LONDON

New York, May 1, 1925.

We take pleasure in giving you an extract from our descriptive catalogue with contract prices on various seeds for delivery in late Fall, 1925 and Spring, 1926.

All prices quoted are free ex steamer Seattle, Wash.

Owing to the great delays on freight shipments in less than carload lots from the coast to the eastern cities, we have decided it would be best to have our brokers in Seattle distribute the seed shipments at that point, sending them by express or parcels post, thereby saving three to five weeks in delivery.

On some items we have not quoted, owing to constant fluctuation in price. Write for latest quotation on any such item that you are interested in. We shall also be pleased to contract for the growing in Corea of any other kind of seed for 1925-1926, provided you supply the stock seeds for such purpose, as cost of labor is very low and no doubt we shall be able to meet any competition, and such stock seeds should reach us not later than middle of April.

Orders should be with us end of June at the latest.

All orders accepted subject to crop.

We give no warranty, express or implied, as to description, quality, productiveness or any other matter of any seeds we send out and we will not be in any way responsible for the crop. If the purchaser does not accept the goods on these terms, they are at once to be returned.
